Summary

Frontend Developer skilled in JavaScript, TypeScript, React.js, Redux Toolkit, and React Query, experienced in building responsive, component-driven web applications with authentication, API integration, and role-based workflows. Interested in frontend architecture, rendering performance, reusable design systems, accessibility, and reliable client-side state management, with a strong focus on delivering polished user experiences.

Skills

Programming Languages: Javascript, Java, Python, C/C++
Frontend: HTML, CSS, React.js, Tailwind CSS
Web Technologies: REST APIs, JSON, Authentication, Role-Based Access Control, DOM Manipulation, Browser APIs
Developer Tools: Git, GitHub, Chrome DevTools, VS Code, Vite, npm, Postman
State and Data: Redux, React Query, Client-Side State Management, API Data Fetching, Pagination and Filtering
Core Concepts: Asynchronous JavaScript, Promises, Event Loop, HTTP/REST, Web Storage, Accessibility, Cross-Browser Compatibility

Experience

Python Intern - ML **April 2024 – June 2024** *Interns Elite Online Training and Internship*

- Reviewed, categorized, labeled, and validated AI training data while maintaining project-defined quality standards.
- Applied structured validation and quality-control processes with strong attention to accuracy and consistency.
- Worked within a professional team environment, following project guidelines and meeting assigned deliverables.

Projects

MedControl — Hospital Management Dashboard — React.js, Node.js MongoDB, REST APIs 2026

- Developing a hospital administration system with modules for patients, appointments, doctors, consultation, pharmacy, laboratory, admissions, billing, and reports.
- Designed a role-based dashboard interface for hospital staff and structured reusable React components for the frontend.
- Integrated a MongoDB-backed application architecture and planned API-driven data management.

AceChat — Academic ML Chatbot — Python, NLTK/Transformer Concepts **2026**

- Designed an academic chatbot project exploring intent-based NLP and conversational responses.

Certifications

Python	*InternsElite*	**2024**
Cyber Security - Hackathon	*SIMATS Engineering*	**2026**
Cloud Computing	*NPTEL*	**2026**

Education

B.Tech CSE — 2027 *Audisankara College of Engineering and Technology* *CGPA: 7.5 / 10*
